

TIGERDET™

ELECTRONIC STARTER DETONATOR

TigerDet™ is Orica's Electronic Starter Detonator keeping the benefits of premium electronic detonators while making it simpler, easier, and faster. TigerDet™ electronic detonators have multiple safety features that are inherent in the design of the electronic detonators' design including spark gaps, input resistors, and the chip itself. It can be used in conjugation with TigerDet™ Blaster to program and fire one detonator at a time to initiate any blasts taken with non-electric detonators in a quarry, tunnelling and surface blasting applications.
